

Why send lenses out for costly remounting?

Centricut introduces the new EZ-Mount for Amada laser systems. This design allows lens replacement at the machine without the need for professional remounting or special tools!

Advantages Include:

- **Replace only the lens, not the mount!**
- **Simplify lens cleaning**
- **Reduce the need for multiple lens mounts**
- **No special tools required**
- **Eliminates the need for screws, springs and indium wire**
- **Replacing at the machine reduces machine down time**
- **Eliminates shipping costs!**

Contact your Hypertherm distributor or call 1-800-752-7623 for more information on this and other premium laser products

Re-use the lens mount, only replace the lens

Simply unscrew and replace the lens when needed. No more downtime and extra expense.

Re-assemble mount and install in machine
